

Chelsea Rolon
Front-End Software Developer/UX Certified
Orlando, FL | chelsea.rolon13@gmail.com | 407-443-6185
Portfolio: <https://chelsea-rolon.github.io/Portfolio/>

Summary

UX-Certified Software Developer with 8 years of proven experience working autonomously in remote environments. Adept at bridging the gap between robust backend logic (Flask, SQLAlchemy) and intuitive frontend experiences (React, Figma). A strong data-driven problem solver with a background in user research, data analysis, and cross-functional leadership, uniquely equipped to build applications that are both highly functional and deeply user-centric.

Technical Skills

Programming & Web Development

- **Languages:** Python, JavaScript, HTML5, CSS3
- **Web Frameworks:** Flask, React, [Node.js](#), Express, Bootstrap
- **Databases & ORMs:** SQLAlchemy, NoSQL
- **Libraries & Data Tools:** Pandas, NumPy, Web Scraping
- **Development Environment:** Git & GitHub, Jupyter Notebook, Visual Studio Code, RESTful APIs, DevOps
- **Methodologies:** Agile, Scrum, CI/CD

UX/UI Design & Research

- **Design Tools:** Figma
- **Methodologies:** User Research, Wireframing, Prototyping

Professional & Soft Skills

- **Remote Collaboration:** 8 Years Autonomous Remote Work, Time Management
- **Project Leadership:** Leadership, Organization, Detail-Oriented
- **Communication:** Public Speaking & Presentations, Design Critique & Feedback

Education

IBM Front-End Software Developer Course- Coursera Online | 2026
Google UX Design Certification - Coursera Online | 2024
AS in Physical Therapist Assistant - Herzing University | 2016
AS with Honors & EMT Diploma - Daytona State University | 2012

Self Employed Software Developer & UX Designer | *February 2025 – Present*

Buggs Island Woodworking and Engraving LLC | June 2026 - Present

- Startup small business wanting a website to fulfill and take orders for upcoming festivals. Designed low-to-high fi wireframes, user flows, and prototypes in Figma to ensure a fluid and accessible way to place orders for products.
- Collaborated with owners on branding, colors, and marketing strategies.

- Currently in progress

Reign Entertainment Collective | February 2025 – March 2025

- Designed low-to-high fidelity wireframes, user flows, and interactive prototypes in Figma for a new responsive website, ensuring an intuitive and accessible user experience.
- Spearheaded the UX strategy and visual asset creation to support the brand's evolution from an individual DJ service to a full-scale entertainment collective.
- Collaborated on information architecture and responsive design layouts to ensure seamless navigation across mobile, tablet, and desktop views.

WealthWell Startup | November 2024 – January 2025

- Collaborated with stakeholders to design interactive prototypes and responsive web wireframes in **Figma**, translating complex financial startup goals into clean user interfaces.
- Conducted iterative user research and usability testing to refine site navigation and optimize user conversion paths.

Volusia Bounce & Slide | October 2024 – November 2024

- Conducted a comprehensive competitive audit and synthesized market research to redefine business branding, logo assets, and optimized pricing structures.
- Built and deployed a responsive website, integrating data-driven marketing strategies, loyalty programs, and automated email campaigns that directly optimized sales conversions.

Physical Therapist Assistant & Data Coordinator

Centerwell Home Health, Vital Caring, One Life | June 2016 – October 2025

- Engineered a custom fall-tracker documentation system to streamline incident reporting and improve clinical efficiency across multiple assisted living facilities (ALFs).
- Spearheaded user research by conducting patient interviews and surveys; leveraged data analysis to identify critical behavioral and environmental trends contributing to fall incidents.
- Synthesized complex clinical data into actionable insights and delivered high-impact presentations to facility directors and residents to implement preventative care programs.
- Operated with 100% autonomy for nearly a decade in high-velocity, fully remote environments—independently managing extensive caseloads, logistical scheduling, and asynchronous documentation.

Senior Supervisor

Kaman's Art Shoppes | December 2013 – June 2016

- Trained, mentored, and delegated daily workflows to a cross-functional team of 20+ employees while overseeing high-volume booth and point-of-sale (POS) operations.
- Designed and implemented comprehensive technical training materials for register operations and proprietary software onboarding.
- Partnered directly with regional management to build out data-driven sales campaigns, boosting departmental revenue and optimizing team performance metrics.
